SUMMARY

Full-Stack Developer with 5 years of experience in MERN Stack (MonogoDB, Express.js, React.js, Node.js), Next.js, and Nest.js. Proficent in Typescript and Tailwind CSS for building responsive user interfaces. Experienced in collaborating with teams and clients to deliver timely, high-quilty projects. Committed to writing clean, maintainable code an enhancing both technical and non-technical skills, including effective communication and teamwork.

Education

Information Technology Institute (ITI)   03/2025 – 08/2025
Mansoura, Egypt

MERN Stack Development (ICC) in 4 month Professional Training Program.

Bachelor of Commerce, Mansoura University   09/2015 – 08/2019 | Mansoura, Egypt

Degree: Good

TECHNICAL SKILLS

Front-End: HTML5, CSS3, SASS, Bootstrap, Tailwind CSS, JavaScript (ES6), JQuery, React.js, Next.js, TypeScript.

Back-End: Node.js, Express.js, MongoDB, NestJS, GraphQL, RESTful APIs.

Tools & Platforms: Git, GitHub, Postman, MongoDB Compass, Vercel, Netlify, Figma, Trello

Freelance Experience

Freelance Experience   01/2020 – present

Worked as a freelance Frontend Web Developer, delivering responsive and interactive web interfaces to clients across various industries. Specialized in building high-quality user interfaces.

Key Highlights:
- Built and deployed multiple responsive websites and landing pages with clean UI and smooth UX
- Styled complex layouts using SASS, Tailwind CSS, and Bootstrap 5
- Integrated frontend with APIs and handled dynamic data rendering and error states
- Delivered projects through platforms like Khamsat, Picalica, and direct client communication
- Managed client expectations, handled revisions, and delivered work on time with professional standards

PROJECTS

- **1. CodeConnect** ⧉
  Developed a comprehensive social media platform designed specifically for programmers and developers as part of a collaborative team project. Built a responsive web application that enables developers to connect, share code snippets and engage in technical discussions. Implemented real-time features for enhanced user interaction and created an intuitive interface optimized for code sharing and technical communication.
  Tech Stack: NextJs, Shadcn UI, NestJs, Redux Toolkit, MongoDB, Websocket
  Role: Team Leader

- **2. Car Rental** ⧉
  Developed a responsive web application for browsing and booking rental cars as part of a 5-member frontend team in the ITI program. Implemented dynamic UI updates using Vanilla JavaScript and simulated backend operations with JSON Server. Enhanced user experience through clean design and mobile-first responsiveness.
  Tech Stack: JavaScript (ES6), HTML5, CSS3, Bootstrap 5, JSON Server
  Role: Team Leader
  Key Achievements:
    - Won 2nd place in the final project evaluation.
    - Successfully coordinated teamwork and delivered the project on time.
    - Demonstrated strong collaboration and leadership skills.

- **3. ReactBlog:** ⧉
  Built a modern blog platform with dynamic routing using ReactJS & React Router. Enabled users to write, edit, and delete blog posts through an intuitive interface. Applied component-based architecture to ensure maintainability and scalability.
  Tech Stack: ReactJS, React Router, TailwindCss

- **4. ExpressBlog:** ⧉
  Developed a backend API service for a blogging platform using Express.js. Implemented full CRUD operations for users and posts. Integrated secure authentication using JWT (JSON Web Tokens) and refresh tokens to manage session persistence. Designed robust error handling to ensure API reliability and data integrity.
  Tech Stack: Node.js, Express.js, MongoDB, Mongoose, JWT, bcrypt, RESTful APIs

- **5. Alien (Social Media)** ⧉
  Built a responsive and interactive frontend interface simulating a basic social media platform. Structured the layout with modern HTML, styled components using Bootstrap 5 and modularized stylesheets with SASS for maintainability. Added dynamic interactivity with Vanilla JavaScript, including post interactions and real-time UI feedback.
  Tech Stack: HTML5, SASS, Bootstrap 5, JavaScript (ES6)

LANGUAGES

- Arabic (Native)
- Excellent command of English language
